

About Me

My name is Aneel and I was born in Burnaby, B.C on July 6, 2007. I am Punjabi and I know how to speak a little bit of it as well. My parents are both full Punjabi so, that makes me full Punjabi too and I enjoy many different Punjabi foods. My family consists of 5 people (including me) and they are:

- My Brothers
 - Devyn who is 16 years old and Joven who is 12 years old.
- My Dad
 - Gurdev who is 48 years old.
- My Mom
 - Suki who is 48 years old.

My family also has my Grandparents and I have a lot of cousins as well.

I enjoy many different types of sports activities. These are my hobbies, and they include hockey, soccer, basketball, running and weightlifting. I also enjoy other things that are my hobbies like:

- Video games
- Playing with friends
- Going to parties

My interests are very similar to my hobbies as I have interest in things like sports (soccer, hockey, basketball), video games (NHL, NBA, Call of Duty, and more), and I also have interest in technology, but I do not know much about it. Some foods I like include:

- ☺ Pizza (usually meat lovers)
- ☺ Burgers
- ☺ Hot dogs
- ☺ Pasta

Experience With Computers

Overall, I do not have a good experience with computers. I do not have a good experience as I do not use computers that much and when I play video games, I play on a console and not a computer, so I do not know much about it. I also rarely use computers as I just use an iPhone or iPad. Even though I do not have a good experience with computers, I have a good experience with other technology like phones, tablets, and television.

Special Considerations

One special condition I have is being able to understand instructions. Usually, I do not get complicated steps, so I need extra help and more detail about the instructions. I would usually ask a friend and then if I am still confused or need help, ask a teacher.
